## INTRODUCTION

This new way of competing will give you, despite not being the first, the recognition of great pigeon and great quality to your pigeons.

The races are designed to promote long distance in our country, being also altruistic and open to all fans that their views are not to go down in history as a pigeon fancier more.

The pigeons will fly in their first year up to 760 km, (FR - Soustouns Costa) with an inscription of only € 50 pigeon, in the second year you can register it to release it at 1,350 km (FR - Caen) for only € 95 pigeon, from where you would beat the current national long distance record of Spain, officially at 1,250 km.

In addition the rugged orography that presents our center route until after the Pyrenees, the abrupt meteorology, the high temperatures, the hot and variable winds, etc. make our route one of the toughest in the world.

However, it is a guarantee of success to know that they will be trained by Rafael Ruz and his team, prestigious fanciers in all modalities. Great connoisseur of long-haul flights, as his record shows.

### Most outstanding Andalusian achievements in long distance:

- 1 ° to conquer the 850 km - Portbou. Year 1990

In addition, it has countless prizes in the rest of categories (speed, depth and great depth), both regional and national and international ... all this, endorses it as a dominating fancier of all distances.

Derby de Córdoba was the first derby in the world to organize finals of 1,000 km or more with results of arrivals that are frankly acceptable. 34% registered in 2013 until reaching over 50% in 2017.

This is influenced by its facilities, perfectly adapted to the climate of its surroundings.

This new competition is going to pass myths in our country, since the participant can retrieve his pigeon after each end without having to auction it and even frankly acceptable price
